SUMMARY

BHANU PRATAP SINGH BHADAURIA Senior Platform Engineer | Developer Experience | Cloud-Native Platforms | AI-Assisted Development Bengaluru, India • LinkedIn: linkedin. Senior Platform Engineer with 10+ years architecting scalable cloud-native platforms, Kubernetes ecosystems, CI/CD and developer enablement. Core expertise in .

TECHNICAL SKILLS

AWS, Python, GitHub, Claude, Kubernetes, Grafana, Prometheus, SQL, Git, Terraform

PROFESSIONAL EXPERIENCE

S&P; Global

Engineer

March 2024 – Present

- Spearhead migrations from GitLab, Azure DevOps, and Jenkins to GitHub Enterprise with seamless developer
- Own and operate AI-assisted development tooling including GitHub Copilot, Cursor IDE, developer agents, and MCP
- March 2024 – Present • Bengaluru, India (Hybrid)
- Design, implement, and maintain CI/CD pipelines across GitHub Enterprise Cloud, Azure DevOps, and GitHub Actions
- Deliver comprehensive training on GitHub Actions, Copilot, Action Importer, and platform best practices.
- Build and extend Internal Developer Portal using Backstage and Port, creating self-service workflows, service catalogs,
- Architect data pipelines and platform telemetry on Databricks, powering analytics on developer productivity and platform
- Administer GitHub Enterprise Cloud including repository governance, branch policies, access controls, and enterprise

February 2022 – February 2024 • (IHS Markit merged with S&P; Global)

- Partnered with security and architecture teams to implement secure-by-default cloud patterns.
- Led platform engineering initiatives supporting enterprise development teams and cloud-native workloads.
- February 2022 – February 2024 • (IHS Markit merged with S&P; Global)
- Drove CI/CD modernization, engineering standards, and delivery automation to improve release quality.
- Designed reusable cloud platform capabilities improving developer self-service and infrastructure consistency.

June 2021 – February 2022 • Bengaluru, India

- Mentored junior engineers on cloud infrastructure, DevOps practices, and automation best practices.
- Led technical delivery for DevOps and platform engineering initiatives for enterprise clients.
- June 2021 – February 2022 • Bengaluru, India
- Designed and implemented CI/CD pipelines and automation frameworks.

III

- Implemented infrastructure automation and configuration management solutions.
- February 2020 – May 2021 • Bengaluru, India
- Ensured compliance with security and regulatory requirements in financial services environment.
- Developed system-level automation and deployment pipelines for financial services applications.

September 2018 – February 2020 • Bengaluru, India

- September 2018 – February 2020 • Bengaluru, India
- June 2014 – August 2018 • Bengaluru, India
- Implemented AWS solutions using EC2, S3, Lambda, DynamoDB, OpsWorks, Elastic Beanstalk, and CloudFormation.

- Developed automation scripts using Python and Bash for infrastructure provisioning.
- Designed cloud infrastructure using AWS services (EC2, S3, Lambda, CloudFormation).
- Delivered AWS cloud solutions and DevOps consulting services for enterprise clients.
- Built CI/CD pipelines and automation frameworks to accelerate software delivery.
- Administered Linux environments (Red Hat, SLES, Ubuntu) for enterprise infrastructure.

EDUCATION

The ICFAI University, Tripura • 2013 – 2016

CERTIFICATIONS

AWS Solutions Architect – Professional • AWS DevOps Engineer – Professional • Certified Kubernetes Administrator (CKA) • HashiCorp Terraform Associate • AWS Solutions Architect Associate • AWS SysOps Administrator Associate • AWS Developer Associate • Google Associate Cloud Engineer • AI For Everyone (S&P; Global) • TECHNICAL EXPERTISE
