SUMMARY

BHANU PRATAP SINGH BHADAURIA Senior Platform Engineer | Developer Experience | Cloud-Native Platforms | AI-Assisted Development Bengaluru, India • LinkedIn: [linkedin.com/in/psarz](https://www.linkedin.com/in/psarz) PROFESSIONAL SUMMARY Platform Engineering leader with 10+ years of experience architecting cloud platforms, Kubernetes ecosystems, CI/CD automation, and developer enablement solutions at enterprise scale. Deep expertise in AWS, Terraform, GitHub Enterprise, Internal Developer Platforms (IDPs), and AI-assisted development tooling. Proven track record standardizing delivery practices, improving deployment velocity, and enabling scalable developer experiences across global engineering organizations. CORE SKILLS Platforms & Infrastructure: AWS (EC2, ECS/EKS, Lambda, S3, IAM, CloudFormation, CDK), GCP, Kubernetes, Docker, Terraform CI/CD & DevOps: GitHub Enterprise Cloud, GitHub Actions, Azure DevOps, GitLab, Jenkins, Hosted Runners Developer Experience: Internal Developer Platforms (IDP), Backstage, Port, Self-Service Workflows, Service Catalogs AI-Assisted Development: GitHub Copilot, Cursor IDE, Developer Agents, MCP (Model Context Protocol) Integrations Code Quality & Security: SonarQube, DevSecOps, CodeQL, Vulnerability Management, Container Security, Wiz Data & Analytics: Databricks, Power BI, Platform Telemetry, Developer Productivity Metrics Automation & Tooling: Python, Bash, ServiceNow Workflows, JFrog Artifactory, Atlassian Suite PROFESSIONAL EXPERIENCE S&P; Global Senior Platform Enablement Engineer / Lead Platform Engineer March 2024 – Present • Bengaluru, India (Hybrid) • Design, implement, and maintain CI/CD pipelines across GitHub Enterprise Cloud, Azure DevOps, and GitHub Actions hosted runners ensuring reliable, fast, and secure software delivery. • Administer GitHub Enterprise Cloud including repository governance, branch policies, access controls, and enterprise configurations. • Own and operate AI-assisted development tooling including GitHub Copilot, Cursor IDE, developer agents, and MCP integrations—driving adoption and measuring productivity impact across engineering teams. • Build and extend Internal Developer Portal using Backstage and Port, creating self-service workflows, service catalogs, and golden paths. • Architect data pipelines and platform telemetry on Databricks, powering analytics on developer productivity and platform adoption. • Spearhead migrations from GitLab, Azure DevOps, and Jenkins to GitHub Enterprise with seamless developer onboarding. • Deliver comprehensive training on GitHub Actions, Copilot, Action Importer, and platform best practices. • Provision, secure, and optimize AWS services (EC2, ECS/EKS, Lambda, S3, IAM, CloudFormation/CDK) underpinning platform infrastructure. Software Engineer III / Sr Software Configuration Management Developer February 2022 – February 2024 • (IHS Markit merged with S&P; Global) • Led platform engineering initiatives supporting enterprise development teams and cloud-native workloads. • Designed reusable cloud platform capabilities improving developer self-service and infrastructure consistency. • Drove CI/CD modernization, engineering standards, and delivery automation to improve release quality. • Partnered with security and architecture teams to implement secure-by-default cloud patterns. HCL Technologies Technical Lead June 2021 – February 2022 • Bengaluru, India • Led technical delivery for DevOps and platform engineering initiatives for enterprise clients. • Designed and implemented CI/CD pipelines and automation frameworks. • Mentored junior engineers on cloud infrastructure, DevOps practices, and automation best practices. FIS Systems Programmer III February 2020 – May 2021 • Bengaluru, India • Developed system-level automation and deployment pipelines for financial services applications. • Implemented infrastructure automation and configuration management solutions. • Ensured compliance with security and regulatory requirements in financial services environment. Capgemini AWS DevOps Consultant September 2018 – February 2020 • Bengaluru, India • Delivered AWS cloud solutions and DevOps consulting services for enterprise clients. • Designed cloud infrastructure using AWS services (EC2, S3, Lambda, CloudFormation). • Built CI/CD pipelines and automation frameworks to accelerate software delivery. Wipro Limited Linux/Cloud Engineer June 2014 – August 2018 • Bengaluru, India • Administered Linux environments (Red Hat, SLES, Ubuntu) for enterprise infrastructure. • Implemented AWS solutions using EC2, S3, Lambda, DynamoDB, OpsWorks, Elastic Beanstalk, and CloudFormation. • Developed automation scripts using Python and Bash for infrastructure provisioning. • Achieved AWS Developer and SysOps certifications, establishing cloud expertise foundation. CERTIFICATIONS • AWS Solutions Architect – Professional • Certified Kubernetes Administrator (CKA) • AWS Solutions Architect Associate • AWS Developer Associate • AI For Everyone (S&P; Global) TECHNICAL EXPERTISE Cloud: AWS (EC2, ECS, EKS, Lambda, S3, IAM, CloudFormation, CDK, DynamoDB), GCP IaC: Terraform, CloudFormation, CDK, Chef Dev Platforms: Backstage, Port, ServiceNow Security: SonarQube, CodeQL, DevSecOps, Wiz OS: Linux (RHEL, SLES, Ubuntu), Unix, macOS EDUCATION The ICFAI University, Tripura • 2013 – 2016 • AWS DevOps Engineer – Professional • HashiCorp Terraform Associate • AWS SysOps Administrator Associate • Google Associate Cloud Engineer Containers: Kubernetes, Docker, EKS, ECS CI/CD: GitHub Actions, GitHub Enterprise, Azure DevOps, GitLab, Jenkins AI Tools: GitHub Copilot, Cursor IDE, MCP, Developer Agents Languages: Python, Bash Experienced in relevant to SRE / Infrastructure Engineer at PeopleX Inc. Active Connector Group.
